DAYTON SITE

2611 Wayne Ave., Bldg. 64
Dayton, OH 45420
937-256-7801

* **AOD, Medically Assisted Detox, Non-Medical Community Residential**

Access Ohio does not operate a Suboxone or Methadone Clinic.

Our Residential, Medication Assisted Treatment and General Outpatient Alcohol and Other Drugs Programs are multidisciplinary, comprehensive treatment programs.

For individuals looking only for Suboxone prescriptions, there are doctors in the community who are able & willing to prescribe it.

**AOD-SPECIFIC
TREATMENT PROGRAMS**

Each person has his, her or their own unique Path to Recovery

Access Ohio collaborates with participants utilizing a strengths-based approach grounded in evidence-based practices to develop individualized treatment and relapse prevention plans.

Medication Assisted Treatment

Access Ohio's MAT Program starts at 5 days per week and includes 9 required hours of treatment activities:

- Group (7.5 hours per week)
- Individual Counseling (1 hour per week)
- Weekly appointment with prescribing physician
- Daily dosing appointments with nurse
- Unlimited strengths-based case management

As clean time and recovery skills increase the number of days and required number of treatment hours will decrease.

Services offered Monday - Saturday

The More You Know

- ❖ **Ohio Medicaid is required for treatment at Access Ohio.**
- ❖ **It is not necessary to stop using prior to coming to treatment.**
- ❖ **If individuals want to detox and/or reduce their amount of use before starting treatment they can, yet it is not required that they do so.**
- ❖ **All of our treatment programs are abstinence-based which means once treatment starts all AOD use must stop.**
- ❖ **At Access Ohio we believe there is a difference between actively using and relapse.**
- ❖ **We understand that relapse is a part of recovery and will help individuals develop their own specific plans to avoid (or limit) access to specific people, places, things and situations that trigger use.**

Mission Statement

Access Ohio Behavioral Health Center of Excellence is a high quality comprehensive behavioral healthcare provider delivering culturally-responsive, results-based mental health and addiction services grounded in evidence-based, best and promising practices. We believe services that uphold dignity, demonstrate respect and honor the worth of every human life, facilitate wellness and empower individuals to succeed, recover and contribute to their communities in meaningful ways.

Belief Statement

All individuals will have access to and receive progressive, quality, culturally responsive and personalized treatment, services and interactions without regard to age, gender, race, ethnicity, disability, national origin, sexual orientation, gender identity, veteran status, HIV disease, religion and/or socio-economic class.

Values

- Quality (Evidence-Based Practices)
- "Results That Matter" (Demonstrated Outcomes)
- Innovation
- Customer Service (Client Satisfaction)
- Kindness
- Teamwork
- Accessibility
- Cultural Responsiveness
